

JOSKIN Once Again in the Spotlight

On Thursday 25th and Friday 26th March, JOSKIN opened the doors of its factory in Soumagne (Belgium) to the film crew of the programme «C'est pas le bout du monde».

This programme is broadcast worldwide by TV5Monde and aims at highlighting the global influence of French-speaking companies. Two days of filming were necessary to present JOSKIN in all its facets!

Even if the broadcast date is still not known, one thing seems to be sure: this report promises to be very interesting!

We will of course keep you informed.

See you soon!

JOSKIN
